

MANAGE YOUR AGED AR WITH BILLING SERVICES BY ARIA

Is your AR Over 90 Days on the rise?

Your accounts receivable (AR) represents how quickly your practice is paid for services provided. The older your AR, the harder it is to collect.

The likelihood of collecting AR over 90 days can drop to as low as 15% if the process is not managed correctly. That's money you've earned and deserve.

Seeing a rise in 90+ AR? Engage the revenue cycle management (RCM) experts at **ARIA RCM Services** to get your collections back on track.

Faster AR, increased collections

With proprietary technology and best practices developed over 20 years, our award-winning team of experts helps you maximize revenue collection.

Our Aged AR Program allows us to focus on this specific problem area and bring your AR back into balance.

The service includes:

- A team of regulatory and payment experts to work your collections
- Full transparency. We work within your practice management system and provide detailed reporting and regular communication, so you remain in full control
- A no-risk compensation model—we get paid when you get paid
- A dedicated account executive who conducts regular financial progress reviews
