

EASY PROVIDER ENROLLMENT INTO ANY HEALTH PLAN

Falling behind on credentialing and enrollment costs you money, but isn't your time is too valuable to spend on all this paperwork?

We can manage your insurance enrollments, maintain provider credentials, and apply for your hospital privileging—all at a fraction of the cost and time of doing everything yourself.

Simplifying complexity

Our credentialing and enrollment services simplify the on-boarding of new clinicians. Our experts keep the revenue flowing, which ultimately improves provider and patient satisfaction while minimizing coverage and referral risks.

Credentialing and enrollment

We work with all eligible provider types and facilities managing the preparation and submission of enrollments, responding to tedious payer validations, and keeping your CAQH profiles up to date.

Our staff is trained to perform primary source verifications according to our own rigorous standards. We can help you get quality provider reviews without the need to invest in additional staff and infrastructure.

Transparency and communication

Working as a member of your team, your dedicated account executive will guide you through the ins and outs of Medicare, Medicaid, and commercial insurance enrollment.

With our proprietary, online portal, you can monitor the status of your applications and access our full reporting suite. We offer a real-time, plan participation tracking grid, enrollment status tracking, and regular reporting communications.
