

# FLEXIBLE PATIENT PAYMENTS

**CGM eMDs**

EHR and Practice Management

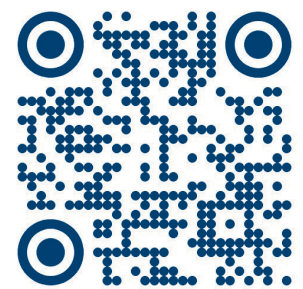

**CGM PAY** is a payment processing solution that gives you the flexibility to customize payment options for your patients' convenience. Best of all, the PCI-compliant integration with your **CGM eMDs** practice management workflow saves your staff time and reduces keying errors.

**CGM PAY** follows the playbook practices demand—tightly integrated solutions that extend the capabilities of your practice management system.

## Key Features

- PCI-compliant, saved payment information means future payments are quicker and more convenient for patients and staff
- Payment plans with customizable setup for each patient
- Fully integrated payment posting including customizable support for first-in, first-out or last-in, first out (FIFO/LIFO), etc.
- Support for practices with multiple tax IDs including shared front desk on one workstation or multi-lane with multiple workstations
- Refund and void processing from within **CGM eMDs**
- Coming soon: Text-to-pay and rule-based, email and print statement integration to reduce billing costs. Send patients emails and only incur the higher paper costs if they don't pay after a user-defined number of days

## Simple integration

CGM PAY delivers a simple integration using workflows any CGM eMDs Bill user already knows.

Saved payment options are also available on the standard payment-entry screen.

Quickly post prepaids using the New Patient Prepayment window and securely saved credit card details.

Quickly start credit card or direct debit payment plans with a customizable number of payments and draw dates.

Guarantor Name	Active	Amount	Day	Card Info	Created By	Created Using	Created	Pmts	Tot	Recent
Faast, Bernard T	<input checked="" type="checkbox"/>	\$90.83	25	ACH Checking 1221	Best, Wayne	eMEDIX Payment	03/24/2024	1	\$90.85	03/24
Wilkinson, Mireya A	<input checked="" type="checkbox"/>	\$91.78	15	Visa 0011 exp 12/24	Patient	eMEDIX Payment	03/24/2024	1	\$91.78	03/24

The new Payment Plans window makes it easy to see all the plans created with several options to filter records and drill through to payment history. Additionally, the Guarantor Balances window will show if there is an active payment plan.
