

ELECTRONIC PRESCRIPTIONS

CGM PRESCRIBE

Medication Management and Adherence

Our advanced, award-winning, e-prescribing platform is exactly what the doctor ordered.

With a modern, web-based interface, **CGM PRESCRIBE** is easy to deploy and strikes a perfect balance between clean visuals and an appropriate density of rich information, allowing prescribers to quickly manage one of the most important parts of treating patients.

Best of all, **CGM PRESCRIBE** is available as a stand-alone solution or integrated with your CompuGroup Medical EHR or practice management system.

Key Benefits

- Easily created personal or practice-wide shortcuts for common and complicated medication and DME management
- Standard features such as interaction, contraindication, allergy, and other alerts including formulary checking with variable settings
- Work lists that make it simple to manage your refills, change requests, electronic prior authorizations, and to cover for other providers and staff in your group
- Real-time benefit information allows prescribers to see and potentially select from alternative therapies that cost patients less
- Patient-messaging option improves patient service and adherence—confirm prescriptions are sent, and provide information about the medicine(s), destination pharmacies, and discount options

Discover an award-winning solution

CGM PRESCRIBE is perhaps the best prescribing system in the nation. We were honored to be awarded not one, but two White Coat awards by Surescripts in 2022:

- The Highest Accuracy award which recognizes the best overall accuracy score
- The Structured & Codified SIG Champion award which recognizes organizations making the best use of the Structured & Codified SIG field.

These awards recognize the high quality of **CGM PRESCRIBE** and mean we're elevating patient safety and healthcare delivery. The better the data, the smoother new prescriptions, refills, change requests, and other prescribing traffic is through the network. This means less time-wasting hassle for you and better patient service.

EPCS & PDMP

CGM PRESCRIBE offers smoothly integrated options for Electronic Prescribing of Controlled Substances (EPCS) and Prescription Drug Monitoring Programs (PDMP).

Required by almost every state, these options help you streamline your operations, integrating your workflows for controlled medications. It's safer, faster, and much easier for prescribers, their staff, and patients!

To see if your state has PDMP or EPCS mandates in place, visit epcsgold.com.
