CGM recognises the extra in the ordinary; the little things that transform the ordinary into something remarkable. That's why we go "all in" - with head, heart and hands - to streamline our customer's back office processes so that they can focus on what matters most - extraordinary patient care.

Founded in 1987 and headquartered in Germany with offices across Europe, the USA and Africa, CGM products are used by over 1.6 million health professionals worldwide.

Much more than a technology company, our platform supports a growing community of doctors, dentists and medical professionals. Our goal is to give healthcare practitioners the tools to collectively improve health and quality of life.

As we stand amid change, we aim to realise CGM Global's vision of **synchronising healthcare** by bringing stakeholders together to shape the future of healthcare in South Africa.
